Subject: Statement of Compliance with Persistent Organic Pollutants (POPs)

To Whom It May Concern:

Sealevel Systems, Inc. hereby declares that our products do not contain any of the organic pollutants listed by the **Persistent Organic Pollutants Regulation (POPs)** covered by regulation (EU) 2019/1021. This regulation deals with the protection of the human health and the environment against these substances by a preferably early elimination of production or accordingly by the limitation to a minimum regarding manufacturing, placing on the market and usage of these substances.

Furthermore, the regulation defines provisions about waste which consist of these substances, in which these substances are contained, or which are contaminated by these substances.

The above information is based on our current level of knowledge from all our materials and component suppliers but not corroborated by independent analyses.

We make every effort to source products responsibly. We also want our customers to make informed purchasing decisions including learning more about POPs. For more information, please visit the following website: <https://echa.europa.eu/understanding-pops>.

Sealevel Systems, Inc. will continue to monitor the POPs regulations for any new chemicals and inform its customers accordingly. Please contact me with any questions or concerns. Thank you for your continued support of Sealevel Systems, Inc.

Best regards,

Dale Sanders
